

The K-LOVE stations in my community serve a need that would be otherwise unmet if these stations were no longer broadcasting. If Low Power FM stations were to replace K-LOVE in the local area there is no assurance that the same needs would be met. K-LOVE serves the public interest by providing radio in which I can feel comfortable playing in the presence of my children, by providing an encouraging and uplifting message to listeners, and by speaking the truth on matters after often overlooked on commercial stations.
